Re-evaluation Level

Explain why a re-evaluation is needed?

The purchase of the property that was included in the original CE approval fell through and D2 has found a different property location. All documentation for the new location will have 'new location' in the file name.

Funding Source: Non-Federal
Does this project require a Federal permit or approval? No
Private Funding: No

Project Description:

The Ohio Department of Transportation is proposing to purchase 2 parcels (total of 12.9 acres) in Napoleon, Henry County, Ohio for the future site of a new full service maintenance facility. There will be no utility impacts or permits required due to this purchase. There will be no impacts to any state or federally listed species or their habitat. There were also no records of any historic resources on these parcels so there will be minimal potential to impact any significant resources. There will be no traffic disruptions as a result of this project. Construction of a new facility will be evaluated under a separate project ID number. This document was written based on parcel legal descriptions and a schematic drawing provided by the district 2 facilities office. This project is not on the STIP, however the next phase is non-federal, 100% state funded.
