Approved: 1/14/2021

**Re-evaluation Level**

**Explain why a re-evaluation is needed?**

Additional RMR questions came up during the real estate phase and discussions were required to determine if there were concerns with buying Toledo Edison property. There were no further actions required.

C2

PID: 108683  
Project Sponsor: Toledo, City of  
ODOT District: 2  
Funding Source: Federal  
Private Funding: No  
Project Description:

The Ohio Department of Transportation is proposing to revise the existing striping scheme, replace signal equipment, and install new overhead lane use signs to improve safety at the intersection of Laskey and Talmadge in the City of Toledo. Permanent right of way is required from 3 parcels (2 commercial, 1 residential) for the signal work. Utility relocations are expected. There will be no impacts to any waterways or floodplains so no permits are required. There will be no impacts to any listed species or their habitat so no coordination with the ODNR or USFWS is required. This project was determined to have minimal effects on any historic properties. Construction is expected to begin in the summer of 2022 and last approximately 90 days. During construction, all 4 legs of the intersection will remain open. Temporary lane closures are expected.

This document was written and approved based on Stage 2 plans.

STIP Reference #: SLI 15

Select the appropriate project type:

(26) Modernization of a highway by resurfacing, restoration, rehabilitation, reconstruction, adding shoulders, or adding auxiliary lanes (including parking, weaving, turning, and climbing lanes), if the action meets the constraints in paragraph (e) of this section. *Examples include: Joint or limited use of right-of-way where the proposed use would have minimal or no adverse social (including highway safety), economic or environmental impacts; Installation of new noise walls and other new noise mitigation projects; Construction of highway safety and truck escape ramps; Construction of bicycle lanes and pedestrian walkways, sidewalks, shared-use paths, or facilities and trailhead parking that do not otherwise qualify for a C1 designation; Beautification or facility improvement projects (i.e. landscaping, curb and gutter installation and replacement, ADA ramps/curb ramps, installation of park benches, decorative lighting, etc.); Construction of alternative energy facilities (fuel tank farms, wind turbines, etc.)*

In accordance with 23 CFR 771.117(e), the proposed project cannot be processed as a C2 CE, if it involves -  
a. Acquisition of more than a minor amount of right-of-way  
b. Residential or non-residential displacements  
c. A Coast Guard, Individual Section 404 and/or a Section 10 permit  
d. A Section 106 finding of Adverse Effect  
e. A Section 4(f) Programmatic or Individual Evaluation  
f. A finding of May Affect, Likely to Adversely Affect to Threatened and Endangered Species  
g. Construction of temporary access, or the closure of existing road, bridge, or ramps, that would result in major traffic disruptions  
h. Changes in access control  
i. Floodplain encroachment other than functionally dependent uses (e.g., bridges, wetlands) or actions that facilitate open space use (e.g., recreational trails, bicycle and pedestrian paths)  
j.

**Administrative Re-evaluation**  
PID 108683 LUC CR 10 0.85 Lasky/Talmge Sfty  
Approved: 1/14/2021

Construction activities in, across or adjacent to a river component designated or proposed for inclusion in the National System of Wild and Scenic Rivers k. No minor public or agency controversy on environmental grounds ( no opposition from any organized groups or agencies and no unresolved environmental coordination ) l. If an EJ Analysis Report is required, the project must be processed as a D-level CE or higher level document For certification purposes, documentation is required to illustrate no significant impacts will occur to the following environmental resources and that no unusual circumstances exist that would warrant a higher level of NEPA document. Upload all supporting documentation to the project file.
