Approved: 11/18/2022

Re-evaluation Level

Explain why a re-evaluation is needed?

Funding type needs to be corrected since there is private (railroad) funding.

Supplemental Re-evaluation Level C1

PID 117759 SAN Jackson St NS

Approved: 11/18/2022

C1

PID: 117759
Project Sponsor: Ohio Rail Development Commission
ODOT District: 2
Funding Source: Federal
Private Funding: Yes
Project Description:

Installation of flashing lights and roadway gates at the Norfolk Southern grade crossing (DOT #475203S) at Jackson St. in the City of Fremont, Sandusky County. Installation will include any ancillary work to make warning devices function as designed, MUTCD compliant, and visible to roadway user.

STIP Reference #: SLI Group Project
Cultural Resources Coordination: Minimal Potential to Cause Effect
Appendix A
Cultural Resources Coordination Date: 11/18/2022

Since no Tribe was interested in this project based on their customized preferences, no further Tribal consultation was conducted.

Supporting documentation has been uploaded to Project File: Yes

Select the appropriate project type (more than one can be selected):

(21) Release of electronics, photonics, communications, or information processing used singly or in combination, or as components of a fully integrated system, to improve the efficiency or safety of a surface transportation system or to enhance security or passenger convenience. Examples include, but are not limited to, traffic control and detector devices, lane management systems, electronic payment equipment, automatic vehicle locaters, automated passenger counters, computer-aided dispatching systems, radio communications systems, dynamic message signs, and security equipment including surveillance and detection cameras on roadways and in transit facilities and on buses. *Additional examples include: Replacement of existing or installation of new traffic signals, flashing beacons, railroad warning devices and the installation of ITS system components; Upgrade of existing tower lighting to new technologies that ensure a lesser impact than the current system; Implementation of other new safety or operations technologies (must be approved by OES).*
