C1

PID: 106882
Project Sponsor: DISTRICT 4-HMA
ODOT District: 4
Funding Source: Non-Federal
Private Funding: No

Project Description:

The Ohio Department of Transportation (ODOT) proposes lighting maintenance and repairs along various interstate, U. S. and state routes throughout Ashtabula, Mahoning and Trumbull Counties.

On two (2) lane roadways, a minimum of one lane in each direction shall be maintained during project construction except when permitted by the project engineer. On highways, the duration of lane closures and restrictions shall be as per the permitted lane closure chart. No substantial traffic disruptions are anticipated with the project.

Based on the project scope of work, its Path 1 Preliminary Development Process (PDP) Classification and the proposed maintenance of traffic measures, emergency/public services contact activities were not conducted for the project.

The project has no Federal funding (100% State funded project), does not involve a Federal action and will be constructed within the existing highway/roadway rights-of-way.

Existing utilities within the project study areas will not be impacted/relocated to construct the project.

The project will not impact any environmentally sensitive resources within the project study areas.

Stage 3 Plans were utilized to evaluate potential environmental impacts by and obtain NEPA approval for the project. The Stage 3 Plans can be found in the Project File/General/Project Information subsection as Stage 3 Design.pdf.

STIP Reference # Statewide Line Item (SLI) Number 12 and is fiscally constrained.

Cultural Resources Coordination: Minimal Potential to Cause Effect - Appendix A

Cultural Resources Coordination Date: 02/16/2018

Approved: 2/22/2018

(22) Projects, as defined in 23 U.S.C. 101 that would take place entirely within the existing operational right-of-way. Existing operational right-of-way refers to right-of-way that has been disturbed for an existing transportation facility or is maintained for a transportation purpose. This area includes the features associated with the physical footprint of the transportation facility (including the roadway, bridges, interchanges, culverts, drainage, fixed guideways, mitigation areas, etc.) and other areas maintained for transportation purposes such as clear zone, traffic control signage, landscaping, any rest areas with direct access to a controlled access highway, areas maintained for safety and security of a transportation facility, parking facilities with direct access to an existing transportation facility, transit power substations, transit venting structures, and transit maintenance facilities. Portions of the right-of-way that have not been disturbed or that are not maintained for transportation purposes are not in the existing operational right-of-way. ***Examples include: Tower lighting within the existing operational right-of-way; Guardrail installation and replacement (including median cable barriers) where roadway ditches and backslopes will not be relocated; Improvements to existing ODOT/County maintenance facilities; Construction of new ODOT/County maintenance facilities within existing operational right-of-way; Environmental mitigation activities within existing operational right-of-way; Work on pedestrian and vehicle transfer structures and associated utilities, buildings, and terminals within existing operational right-of-way; Construction of alternative energy facilities (fuel tank farms, wind turbines, etc.)***

(31) Activities that do not utilize federal monies or require federal actions.
