PID: 106298
Project Sponsor: DISTRICT 4-PLANNING
ODOT District: 4
Funding Source: Non-Federal
Does this project require a Federal permit or approval? No
Private Funding: No

Project Description:

The Ohio Department of Transportation (ODOT) proposes the application of pavement markings along various interstate, U.S. and state routes throughout District 4.

On all highways/roadways with three or more lanes, a minimum of one 10-foot lane of traffic in each direction shall be maintained on the existing pavement during project construction. On roadways with two lanes, a minimum of one 10-foot bidirectional lane shall be maintained on the existing pavement during project construction. Substantial traffic disruptions are not expected during project construction.

Based on the project scope of work, its Path 1 Preliminary Development Process (PDP) Classification and the proposed maintenance of traffic measures, emergency/public services contact activities were not conducted for the project. Information about this project is posted to the Summit County listing on the Public Meetings/Public Involvement page of the ODOT District 4 website.

The project has no Federal funding (100% State funded project), does not involve a Federal action and will be constructed within the existing highway/roadway rights-of-way.

Existing utilities within the project study areas will not be impacted/relocated to construct the project.

Based on the information contained in the RMR Form prepared for the project, further environmental site assessment or special materials management is not warranted for the project. See the RMR documentation for the project in the Project File/ESA section.

This project is considered ecologically exempt under the Ecological MOA (Agreement 19394). See the Ecological Review Form - Ecologically Exempt Project.pdf for the project in the Project File/Ecological/Reports subsection.

The project will not impact any environmentally sensitive resources within the project study areas.

The environmental document and associated studies, as applicable, were approved using the Stage 3 Design plans for the project. A copy of the Stage 3 Design plans for the project is in the Project File/General/Project Information subsection as Stage 3 Design.pdf.

The estimated project cost specified in Ellis is 3.9% greater than the project funding specified in the ODOT Fiscal Year (FY) 2018 - FY 2021 State Transportation Improvement Program (STIP) Statewide Line Item (SLI) Grouped Project Report as of 11/21/2018. Although specified in Ellis, a TIP/STIP reference is not necessary for the project because it is a 100% State funded project.

STIP Reference #

Statewide Line Item (SLI) Number 32
and is fiscally constrained.

Cultural Resources Coordination:

ORC 149.53 Appendix A

Cultural Resources Coordination Date:

11/28/2018

Since no Tribe was interested in this project based on their customized preferences, no further Tribal consultation was conducted.

Supporting documentation has been uploaded to Project File:

Yes

Select the appropriate project type (more than one can be selected):

(8) Installation of fencing, signs, pavement markings, small passenger shelters, traffic signals, and railroad warning devices where no substantial land acquisition or traffic disruption will occur. *Examples include: The installation or maintenance of signs, pavement markings/raised pavement markers/sensors, traffic calming activities, and/or new or replacement fencing (right-of-way, vandal, etc.); General pavement marking or "line painting" projects.*

(31) Activities that do not utilize federal monies or require federal actions.
