**C1**

**PID:** 107672  
**Project Sponsor:** Ohio Rail Development Commission  
**ODOT District:** 4  
**Funding Source:** Federal  
**Private Funding:** Yes

**Project Description:**

STA Market St S, City of Canton: Upgrade flashing lights and roadway gates at the Norfolk Southern grade crossing DOT # 502721M. Installation will include any ancillary work to make warning devices function as designed, MUTCD compliant, and visible to roadway user.

**STIP Reference #** STW Line 21  
**Cultural Resources Coordination:** Minimal Potential to Cause Effect - Appendix A  
**Cultural Resources Coordination Date:** 07/19/2018  
**Supporting documentation has been uploaded to Project File:** Yes

**Select the appropriate project type (more than one can be selected):**

(21) Release of electronics, photonics, communications, or information processing used singly or in combination, or as components of a fully integrated system, to improve the efficiency or safety of a surface transportation system or to enhance security or passenger convenience. Examples include, but are not limited to, traffic control and detector devices, lane management systems, electronic payment equipment, automatic vehicle locaters, automated passenger counters, computer-aided dispatching systems, radio communications systems, dynamic message signs, and security equipment including surveillance and detection cameras on roadways and in transit facilities and on buses. *Additional examples include: Replacement of existing or installation of new traffic signals, flashing beacons, railroad warning devices and the installation of ITS system components; Upgrade of existing tower lighting to new technologies that ensure a lesser impact than the current system; Implementation of other new safety or operations technologies (must be approved by OES).*
