Private Funding: No

Project Description:

The Ohio Department of Transportation is proposing to replace a collapsed culver under I-280 in Wood County due to safety concerns. No new right of way or utility impacts are anticipated. A permit from the US Army Corps of Engineers is required for this project and will be obtained prior to construction. This project is not located within a special flood hazard area so no floodplain coordination or permits are necessary. No suitable habitat for any state or federally listed species is present within the project area so there will be no impacts to any ecologically significant resources. There is minimal potential to cause effects to any historic resources. Construction is expected to begin in the summer of 2018 and last approximately 30 days. During construction, a minimum of one lane in each direction will be maintained on I-280.

This document was written and approved based on a footprint. Due to the emergency nature of this project, this document was approved prior to formal plan design.

STIP Reference # next phase is non-federal 100%
state funded and is fiscally
constrained

Select the appropriate project type:

(28) Bridge rehabilitation, reconstruction, or replacement or the construction of grade separation to replace existing at-grade railroad crossings, if the actions meet the constraints in 23 CFR 771.117(e). *Examples include: Railroad projects that close or relocate at-grade crossings*

In accordance with 23 CFR 771.117(e), the proposed project cannot be processed as a C2 CE, if it involves -
a. Acquisition of more than a minor amount of right-of-way b. Residential or non-residential displacements c. A Coast Guard, Individual Section 404 and/or a Section 10 permit d. A Section 106 finding of Adverse Effect e. A Section 4(f) Programmatic or Individual Evaluation f. A finding of May Affect, Likely to Adversely Affect to Threatened and Endangered Species g. Construction of temporary access, or the closure of existing road, bridge, or ramps, that would result in major traffic disruptions h. Changes in access control i. Floodplain encroachment other than functionally dependent uses (e.g., bridges, wetlands) or actions that facilitate open space use (e.g., recreational trails, bicycle and pedestrian paths) j. Construction activities in, across or adjacent to a river component designated or proposed for inclusion in the National System of Wild and Scenic Rivers k. No minor public or agency controversy on environmental grounds (no opposition from any organized groups or agencies and no unresolved environmental coordination) l. If an EJ Analysis Report is required, the project must be processed as a D-level CE or higher level document For certification purposes, documentation is required to illustrate no significant impacts will occur to the following environmental resources and that no unusual circumstances exist that would warrant a higher level of NEPA document. Upload all supporting documentation to the project file.

Waterways: Present; No Coast Guard, Individual
404, and/or Section 10 Permit
required

Environmental Document Level: C2
PID 108690 WOO 280 3.37 J&B Culvert

Approved: 7/20/2018

Waterways Permit Type:	Permit Determination and/or Permit Application Approval Pending
Isolated Wetland Permit	No
Endangered Species:	No Impacts to Protected Species and Critical Habitat
100-Year Floodplain:	No Encroachment Within a Special Flood Hazard Area (SFHA)
Section 4(f):	Not present
Section 6(f):	Not present
Cultural Resources:	Present; No Finding of Adverse Effect
Cultural Resources Coordination:	Minimum Potential to Cause Effect - Appendix A
Cultural Resources Coordination - ODOT Approval Date:	11/08/2017
Projects that meet C2 criteria are not anticipated to have impacts to the following environmental resources. If resources are present, documentation is only required if there is a potential for impacts.	
Air Quality:	Studies Not Required
Air Quality - Coordination with OES:	No
Noise:	Studies Not Required
Noise Coordination - OES Approval Date:	07/20/2018
Hazardous Materials - ESA Screening Conducted	Studies Not Required
Farmland:	Non-Urbanized Area; No Impacts in Accordance With the Farmland MOU, 7 CFR 658, and ORC 929.05
Scenic Rivers	No National Wild and Scenic River Within 1000 Feet of the Proposed Project Area
Projects that meet C2 criteria must be in accordance with ODOT's UP Guidance and activities conducted for Public Involvement are commensurate to the project's type and scope of work.	
Underserved Populations	Does Not Exceed UP Guidance Criteria; No UP Analysis Report Required and No UP Issues Raised During Public Involvement
Public Involvement:	Minimum PI Requirements Met; No Minor Public or Agency Controversy on Environmental Grounds
Environmental Commitments	Yes

Environmental Commitments

C2

1) The project requires a waterway permit for work within UNT to Ayers Creek which will be attached to the plans as Special Provisions that shall be followed throughout construction by the contractor. No work below the Ordinary High Water Mark (OHWM) shall take place until the proper permit is obtained by ODOT.
