Project Sponsor: HENRY COUNTY ENGINEER
ODOT District: 2
Funding Source: Federal
Private Funding: No

Project Description:

The Henry County Engineers Office is proposing to re-stripe the pavement markings on various routes in southern Henry County. All work is within the existing right of way and there will be no impacts to any utilities. No permits from the USACE are required because there will be no impacts to any water resources. There will be no impacts to any federally or state listed species or their habitats. There will be work within 1000' of the scenic Maumee River, however striping is an exempt activity and no coordination with the ODNR is required. Striping has minimal potential to cause effects to historic resources. Construction is expected to begin in the summer of 2019 and last approximately 60 days. During construction, at least one lane of traffic will be maintained at all times.

This document was written and approved based on Stage 1 plans.
