Project Sponsor: DISTRICT 2 PRODUCTION
ODOT District: 2
Funding Source: Non-Federal
Does this project require a Federal permit or approval? No
Private Funding: No

Project Description:

This project is an operations contract for two lift bridges within District 2 to open and lower the (1) LUC-65 (Craig Street Bridge) over the Maumee and (2) OTT-163 Bridge over the Portage River. All work is within the existing right of way and there will be no impacts to any utilities. The work on these bridges does not require any US Army Corps of Engineer or US Coast Guard permits since there is no work below the deck or Ordinary High Water Mark (OHWM) of any bridge. This project is located within a special flood hazard area, however there will be no impacts to the floodplain, as shown in the project file. The contract begins in January of 2020 and lasts one calendar year (until 12-31-20). The bald eagle nest shown on the ecological map is over 1,000 feet away from the bridge and therefore is outside the 660 feet range in which USFWS requires timing restrictions. The project will not impact normal traffic. The project is within the Ottawa County Regional drinking water supply area, however work (opening and closing the bridge) will not have any impact on the drinking water supply.

This document was written and approved based on Stage 2 plans.

(31) Activities that do not utilize federal monies or require federal actions.

Environmental Commitments: Yes

Environmental Commitments

C1

1) The Project Designer shall incorporate the following note into the plans: If at any time there may be a delay in opening the LUC-65-5.35 (Craig Memorial) bridge or OTT-163-24.11 (Monroe Street) bridge for vessels to pass, the US Coast Guard shall be notified by the contractor as soon as it is known that a delay is possible in order for the USCG to alert users.
