Project Sponsor: Toledo, City of
ODOT District: 2
Funding Source: Federal
Private Funding: No

Project Description:

This project will add 0.84 miles of sidewalk on Schneider road, from Brierheath avenue to S. Detroit avenue. This includes adding walk, replacing drive approaches, as well as minor drainage improvements. All work is within the existing right of way and there will be impacts to utilities. There are no jurisdictional water resources in the project area so no USACE permits are required. This project is not located within a special flood hazard area so there will be no impacts to the floodplain. There is no suitable habitat for any state or federally listed species within the project area so there will be no impacts to any ecological resources. The work included in this project has minimal potential to cause effects to historical resources. Construction is expected to begin fall or 2021 and last approximately 30 days. During construction, a minimum of one traffic lane will be maintained at all times.

This document was written and approved based on Stage 1 plans.

Cultural Resources Coordination: Minimal Potential to Cause Effect
Appendix A
Cultural Resources Coordination Date: 11/08/2017
Tribal Consultation Summary/Remarks: No comment received within 30 days
Supporting documentation has been uploaded to Project File: Yes

Select the appropriate project type (more than one can be selected):

(22) Projects, as defined in 23 U.S.C. 101 that would take place entirely within the existing operational right-of-way. Existing operational right-of-way refers to right-of-way that has been disturbed for an existing transportation facility or is maintained for a transportation purpose. This area includes the features associated with the physical footprint of the transportation facility (including the roadway, bridges, interchanges, culverts, drainage, fixed guideways, mitigation areas, etc.) and other areas maintained for transportation purposes such as clear zone, traffic control signage, landscaping, any rest areas with direct access to a controlled access highway, areas maintained for safety and security of a transportation facility, parking facilities with direct access to an existing transportation facility, transit power substations, transit venting structures, and transit maintenance facilities. Portions of the right-of-way that have not been disturbed or that

Approved: 3/5/2019

are not maintained for transportation purposes are not in the existing operational right-of-way. *Examples include: Tower lighting within the existing operational right-of-way; Guardrail installation and replacement (including median cable barriers) where roadway ditches and backslopes will not be relocated; Improvements to existing ODOT/County maintenance facilities; Construction of new ODOT/County maintenance facilities within existing operational right-of-way; Environmental mitigation activities within existing operational right-of-way; Work on pedestrian and vehicle transfer structures and associated utilities, buildings, and terminals within existing operational right-of-way; Construction of alternative energy facilities (fuel tank farms, wind turbines, etc.)*

(23) Projects that receive less than \$5,179,656.40 of Federal funds or with a total estimated cost of not more than \$31,077,938.40 and with Federal funds that comprise less than 15 percent of the total estimated project cost *(each amount adjusted annually by the Secretary to reflect any increases in the Consumer Price Index prepared by the Department of Labor, see www.fhwa.dot.gov or www.fta.dot.gov).*

Environmental Commitments:

No

Environmental Commitments

C1

- 1) The Project Designer shall incorporate a note into the plans ensuring that pedestrian access is maintained by through the construction zone at all times by the City of Toledo and contractor.
