The project involves an Alternative Evaluation Report for the East 93rd Street/East 105th Street Multi-Modal Project is a complete streets project.

Categorical Exclusion (CE) "Certified" C List
 Updated 3/5/2025

The following project types do not require detailed documentation for NEPA compliance. These projects meet the criteria for CEs in paragraph (a) of 23 CFR 771.117, and based on 23 CFR 771.117 (c), normally do not require any further NEPA documentation. Note: the following is a modified 771.117(c) list. Some descriptions have been modified to align with ODOT's program and typical project types which are highlighted below.

C(1) Activities that do not involve or lead directly to construction, such as planning and research activities; grants for training; engineering to define the elements of a proposed action or alternatives so that social, economic, and environmental effects can be assessed; and Federal-aid system revisions that establish classes of highways on the Federal-aid highway system.

ODOT hereby confirms that the above project types are identified in 23 CFR 771.117(c) and as listed, certify that the following criteria have been met:

1. The action does not have any significant environmental impacts as described in 23 CFR 771.117(a).
2. The action does not involve unusual circumstances as described in 23 CFR 771.117(b).
3. The action does not involve the following:
 1. The acquisition of any temporary or permanent right-of-way.
 2. The use of properties protected by Section 4(f) of the Department of Transportation Act (49 U.S.C. 303).
 3. Require coordination with the State Historic Preservation Officer per ODOT's Section 106 PA.
 4. Any U.S. Coast Guard construction permits or any US Army Corps of Engineers Section 404 permits, 408 actions or Flowage Easement impacts.
 5. Any work in streams or wetlands.
 6. Any work encroaching on a regulatory floodway or any work affecting the base floodplain (100-year flood) elevations of a water course or lake.
 7. Construction in, across or adjacent to a river designated as a component or proposed for inclusion in the National System of Wild and Scenic Rivers.
 8. Any changes in access control.
 9. The use of a temporary road, detour or ramp closure unless the use of such facilities satisfies the following conditions:
 1. Provisions are made for access by local traffic and so posted.
 2. Through-traffic dependent business will not be adversely affected.
 3. The detour or ramp closure, to the extent possible, will not interfere with any special local event or festival.
 4. The temporary road, detour or ramp closure does not substantially change the environmental consequences of the action.
 5. There is no substantial controversy associated with the temporary road, detour, or ramp closure.
 6. Any known hazardous materials sites, not including solid waste, or previous land uses with potential for hazardous materials remain within the right-of-way.
 7. The action will not impact suitable habitat for a federally listed endangered or threatened species within the occupied range or critical habitat for the species.

If one or more of the above conditions are not satisfied, a C1, C2, or D level CE must be prepared in accordance with ODOT's NEPA Assignment Categorical Exclusion Guidance. Appropriate environmental documentation must be completed in EnviroNet. If the above conditions are met, the following certification will be uploaded to the Project File Tab in EnviroNet (until further updates can be made to enhance the system):

ODOT certifies that this action meets 23 CFR 771(c) and will not result in significant impacts to the environment. This project will not result in any of the following: (repeat the above conditions)

The next phase of the proposed project is listed on the STIP:

Yes

Ellis STIP Details

Phase	Current STIP Reference
ENV	On Previous STIP
CO	

Environmental Document Level: C1
PID 108245 CUY E. 93rd/E. 105th Multi-Modal

Approved: 11/3/2025

Phase	Current STIP Reference
DD	On Previous STIP

The next phase of project development is outside of the current STIP/TIP or not federally funded: Yes

The current cost estimate is in line with existing federal procedures for Ohio STIP Amendments and Administration Modifications: Yes

Cultural Resources Coordination: No Potential to Cause Effect

Cultural Resources Coordination Date: 11/03/2025

Since no Tribe was interested in this project based on their customized preferences, no further Tribal consultation was conducted.

Supporting documentation has been uploaded to Project File: No

Select the appropriate project type (more than one can be selected):

(1) Activities which do not involve or lead directly to construction, such as planning and technical studies; grants for training; engineering to define the elements of a proposed action or alternatives so that social, economic, and environmental effects can be assessed; and Federal-aid system revisions which establish classes of highways on the Federal-aid highway system. *Examples include: Study type projects (i.e. feasibility studies, etc.); Land donations to ODOT associated with ROW permits (non-NHS/non-Limited Access right-of-way). (Regulated Materials Review issues will require coordination with ODOT-OES).*
