## C1

**PID:** 112422  
**Project Sponsor:** DISTRICT 2 ENGINEERING  
**ODOT District:** 2  
**Funding Source:** Non-Federal  
**Does this project require a Federal permit or approval?** No  
**Private Funding:** No

### Project Description:

This project is a Type A emergency project to replace a conduit under westbound State Route 2 near the State Route 163 interchange in Ottawa County Ohio. All work is within the existing right of way and there will be no impacts to utilities. There are no plans being developed for this project as it is an emergency project that the contractor will determine the design in construction. There will be no impacts to any waters of the US or special flood hazard areas so no permits are required. There are no historical resources in the area so this project has minimal potential to cause effects to any significant resources. There will also be no impacts to any state or federally listed species or their habitat. Construction is expected to being in the spring of 2020 and last approximately 30 days. During construction, a minimum of 1 lane of traffic on WB SR-2 will be maintained at all times.

This document was written based on a footprint provided by District 2 design. This project is not on the STIP, however the next phase is non-federal, 100% state funded.

**STIP Reference #** N/A  
**Cultural Resources Coordination:** ORC 149.53 Appendix A  
**Cultural Resources Coordination Date:** 01/29/2020

Since no Tribe was interested in this project based on their customized preferences, no further Tribal consultation was conducted.

**Supporting documentation has been uploaded to Project File:** Yes
