Project Description:

The City of Port Clinton is proposing to install sidewalk on the north side of W. Fremont Rd from S. McKinley Drive to Port Clinton Pointe in order to create a safer route to school. Additional work includes the addition of new crosswalks throughout the city. All work is within the existing right of way except for some temporary work required to construct the sidewalk on school property. There will be no impacts to utilities. There is no work within any waterways or floodplains so there are no permits required. There will be no impacts to any ecological or historical properties. Construction is expected to begin in the summer of 2021 and last approximately 90 days. During construction, a minimum of one lane of traffic on all roadways will be maintained at all times.

This document was written and approved based on stage 3 plans.
