Project Description:

The Ohio Department of Transportation in partnership with the Ohio Department of Natural Resources is proposing a project to resurface the parking lot of the Fort Meigs Wildlife Area in Wood County. All work is within the existing right of way and there will be no impact to utilities. There is no work within the waters of the US and the project is located within a floodplain. There are some ecological species located within the project area but there will be no impact to those state or federally listed species or their habitat. This project is also located within some cultural historic areas but there is a minimal potential to cause affects to any historical resources. Construction is expected to begin in autumn of 2021 and will last for approximately 5 days.

This document was written and approved based on Stage 3 plans.
