PID:	114131
Project Sponsor:	Cleveland, City of
ODOT District:	12
Funding Source:	Federal
Private Funding:	No

Project Description:

The Part 2 project is associated with the CUY East 185th Streetscape Part 1 project (PID 113123), which is a collaboration between the Cities of Cleveland and Euclid, led by the City of Euclid and is north of the Part 2 project. The Part 2 project consists of improvements to East 185th Street from 665 feet north of St. Clair Avenue, to 100 feet south of the southern curb return of Pawnee Avenue, all within the City of Cleveland, Cuyahoga County, Ohio. The specific improvements will be asphalt pavement planning (3' thickness); partial and full depth pavement repairs; new asphalt concrete intermediate and surface courses; new curb replacement; new sidewalk and driveways; ADA compliant curb ramps at all non-compliant locations; adjusting or reconstructing existing catch basins; underdrain; installation of traffic signals with mast arms; new signing and pavement markings (including bike lanes and/or sharrows); utility adjustment; 3,250 feet of new 12-inch water main; and streetscape elements.

While the improvements are being constructed along East 185th Street, southbound traffic will be detoured to East 200th Street and northbound traffic will be maintained between Villaview Road and Lake Erie. The detour route will be signed so that drivers are able to navigate southbound East 185th Street by following temporary detour signs. Two-way traffic will be maintained between Nottingham Road to Villaview Road. Access to residences and businesses will be maintained throughout construction. The contractor will be required to coordinate with the schools and hospitals. Access to the I-90 ramps will be maintained at all times except for short duration closures during off peak hours. Side streets will be closed in an alternating sequence for intersection construction. Part-width construction will be required for the intersections of Villaview Road and Neff Road. Construction will occur in one full and one partial construction season, and in two stages. Stage 1 construction will be between Nottingham Road and Abby Avenue. Stage 2 Construction will be between Abby Avenue and Lake Erie. A fuller explanation of the maintenance of traffic scheme, including detour maps and diagrams, is included in the Project File/Maintenance of Traffic/Detour Mapping.

Traffic signals will be replaced at the Villaview Road and Neff Road intersections. Monterey Avenue traffic signal to be removed and replaced with a Rectangular Rapid Flashing Beacon (RRFB) for an enhanced pedestrian crosswalk. The existing water main will be abandoned south of Villaview Road to Mozina Drive. The existing water main from Mozina Drive to Pawnee Avenue will be replaced.

Mapping that depicts the project on a United States Geological Survey (USGS) 7.5-Minute Topographic Quadrangle Map as well as other relevant mapping is included in Project File/General/Project Information.

No work in streams, wetlands, or pollinator initiative sites. No tree removal.

An RMR Screening was completed. ODOT-OES determined that a PCS plan note shall be included in the plans to address soil contamination from 8 adjacent properties. In addition a plan note to manage and dispose of water from excavation requiring dewatering adjacent to 2 parcels. Environmental commitments are included.

ODOT approved the project under Appendix B as having minimal potential to cause effect to historic properties and as not part of a larger undertaking on 7/27/2021. The Cultural Resources Tab has been completed.

Environmental Document Level: C2
PID 114131 CUY East 185th Streetscape Part2

Approved: 8/21/2021

A listing of Section 6(f) grants from the Land and Water Conservation Fund to park projects in Cuyahoga County was reviewed and is included in Project File/Section 6(f)/Project information. No park projects on this list would be impacted by the project.

A Virtual Public Presentation was available for public comment between June 1, 2021 and July 1, 2021. The comments received covered access to private property during construction, drainage, future land use, and landscaping. The City responded to each comment explaining how each concern will be dealt with in the project. No changes in design were made due to public comments. The public comments received and City's responses are included in Project File/Public Involvement/Project Information/Response to Comments.pdf.

Public Involvement Conclusion: The City has decided to proceed with the project as currently designed.

Construction Cost Estimate: \$6,706,908.00 21% federal funding and 79% local funding.

The environmental document and associated studies are being approved using Stage 1 Design. A copy of the plans is included in in Project File/General/Project Information.

Select the appropriate project type:

(27) Highway safety or traffic operations improvement projects, including the installation of ramp metering control devices and lighting, if the project meets the constraints in paragraph (e) of this section. *Examples include: Lane reduction ("road diet") changes provided traffic analysis is completed; Railroad projects that close at-grade crossings to improve safety or traffic operations.*

In accordance with 23 CFR 771.117(e), the proposed project cannot be processed as a C2 CE, if it involves -
a. Acquisition of more than a minor amount of right-of-way b. Residential or non-residential displacements
c. A Coast Guard, Individual Section 404 and/or a Section 10 permit d. A Section 106 finding of Adverse Effect
e. A Section 4(f) Programmatic or Individual Evaluation f. A finding of May Affect, Likely to Adversely Affect to Threatened and Endangered Species
g. Construction of temporary access, or the closure of existing road, bridge, or ramps, that would result in major traffic disruptions
h. Changes in access control
i. Floodplain encroachment other than functionally dependent uses (e.g., bridges, wetlands) or actions that facilitate open space use (e.g., recreational trails, bicycle and pedestrian paths)
j. Construction activities in, across or adjacent to a river component designated or proposed for inclusion in the National System of Wild and Scenic Rivers
k. No minor public or agency controversy on environmental grounds (no opposition from any organized groups or agencies and no unresolved environmental coordination)
l. If an EJ Analysis Report is required, the project must be processed as a D-level CE or higher level document For certification purposes, documentation is required to illustrate no significant impacts will occur to the following environmental resources and that no unusual circumstances exist that would warrant a higher level of NEPA document. Upload all supporting documentation to the project file.

Waterways:	Not Present
Will any wetlands be impacted?	No
Endangered Species:	No Impacts to Protected Species and Critical Habitat
100-Year Floodplain:	No Encroachment Within a Special Flood Hazard Area (SFHA)
Section 4(f):	Not present
Section 6(f):	Not present
Cultural Resources:	Present; No Finding of Adverse Effect

Environmental Document Level: C2
PID 114131 CUY East 185th Streetscape Part2
Approved: 8/21/2021

Cultural Resources Coordination:	Minimum Potential to Cause Effect Appendix B
Cultural Resources Coordination - ODOT Approval/SHPO Concurrent Date	07/27/2021
Since no Tribe was interested in this project based on their customized preferences, no further Tribal consultation was conducted.	
Projects that meet C2 criteria are not anticipated to have impacts to the following environmental resources. If resources are present, documentation is only required if there is a potential for impacts.	
Air Quality:	Studies Not Required
Air Quality - Coordination with OES:	No
Noise:	Studies Not Required
Noise Coordination - OES Approval Date:	08/11/2021
Hazardous Materials - ESA Screening Conducted	Yes
Hazardous Materials - OES Approval Date:	08/20/2021
Phase I ESA Warranted Based on Coordination with OES:	No Further Studies Warranted
Farmland:	Urbanized Area; No Impacts in Accordance With the Farmland MOU and 7 CFR 658
Scenic Rivers	No National Wild and Scenic River Within 1000 Feet of the Proposed Project Area
Projects that meet C2 criteria must be in accordance with ODOT's UP Guidance and activities conducted for Public Involvement are commensurate to the project's type and scope of work.	
Underserved Populations	Does Not Exceed UP Guidance Criteria; No UP Analysis Report Required and No UP Issues Raised During Public Involvement
Public Involvement:	Minimum PI Requirements Met; No Minor Public or Agency Controversy on Environmental Grounds
Environmental Commitments	Yes

Environmental Commitments

C2

- 1) The contractor shall be required to closely coordinate the construction schedule with the City of Cleveland, School District and Emergency Services prior to the start of construction activities.
- 2) PCS plan note shall be included that manages and disposes excavated soil from these adjacent properties:
 - RM-001; 726 East 185th Street
 - RM-008; 790 East 185th Street
 - RM-019/RM-020; 910 East 185th Street
 - RM-036; 751 East 185th Street
 - RM-050; 911 East 185th Street
 - RM-060; 1035 East 185th Street
 - RM-061; 1201 East 185th Street
 - Euclid Creek
- 3) A plan note to manage and dispose of water from excavation required adjacent to these properties:
 - RM-031; 1150 East 185th Street
 - RM-036; 751 East 185th Street
