ODOT District: 12
Funding Source: Federal
Private Funding: No

Project Description:

The City of Garfield Heights in cooperation with the Ohio Department of Transportation (ODOT) proposes to rehabilitate Antenucci Boulevard (CR 787) from Transportation Boulevard to Turney Road in the City of Garfield Heights, Cuyahoga County. Improvements include pavement milling and resurfacing, fulldepth and partial depth pavement repairs, curb repair, catch basin reconstruction, guardrail removal on the south side on Antenucci Blvd., new pavement markings, sign replacement, and removal of two remnant intersections at Carol Jean Boulevard and Andover Boulevard with associated drainage improvements. The project is necessary to address the poor pavement condition.

The project is considered Ecologically Exempt under the Ecological MOA (Agreement 193340). See the Ecological tab for documentation.

A Regulated Materials Review Screening was conducted September 16, 2022. ODOT District 12 approved this screening on 10/6/22. No further analysis is required unless changes are made to the plans. See project file for documentation.

Based on the proposed scope of work, the project is exempt from National Flood Insurance Program (NFIP) and EO 11988 flood plain analysis.

A public notification letter inviting comments on the project was mailed on May 14, 2021. All comments received can be found in the project file. The primary comment/concern received is about the proposed project removing the existing guardrail along Antenucci Blvd at Andover Blvd and Carol-Jean Blvd. The response to the comment/concern is that the project proposes to remove the existing intersection pavement at both locations and replace it with curb, sidewalk, and grass. Because of the complete intersection removal, guardrail will no longer be required. Vehicles will not have access to Carol-Jean Blvd and Andover Blvd.

Construction Cost Estimate: \$638,750.00 80% federal/20% local

The C1 approval is based on Stage 1 Design plans found in the project file.
