Project Description:

The City of Bryan is currently proposing to install new sidewalks along priority student route near Bryan City Schools to increase safety. Permanent and/or temporary right of way will be acquired from 18 residential parcels. This project does not include impacts to any waterways or floodplains, therefore no US Army Corps of Engineers or floodplain permits are required. There will be no impacts to any ecological or historically significant resources. All work near historic resources was coordinated with the Ohio Historic Preservation Office and it was determined that there would be no adverse effect on any historic properties/no historic properties effected. Construction is expected to begin in the summer of 2023 and last approximately 60 days. During construction, one lane of traffic will be maintained at all times.

This document was approved based on Stage 2 Plans.
