Project Sponsor: Willowick, City of
ODOT District: 12
Funding Source: Federal

Project Description:

The City of Willowick, The Northeast Ohio Areawide Coordinating Agency (NOACA), and the Ohio Department of Transportation (ODOT) District 12 are proposing to conduct a resurfacing project along E. 305th Street from Lakeland Boulevard to Lakeshore Boulevard (SR 283) in Lake County, Ohio. The project is approximately 1.42 miles long and will take place in the City of Willowick. The project will include the resurfacing of the existing concrete pavement, replacement of curb ramps to meet Americans with Disabilities Act (ADA) requirements, replacement of pavement markings, and adjustment of existing castings to grade within paving limits. All work is proposed to be completed with the existing right-of-way. No utilities will be relocated as part of the project. Vehicle and pedestrian traffic will be maintained in the work zone and at all roadway crossings during construction. Traffic will be maintained by reducing the number of through lanes in certain sections of the project or by the use of flaggers in other sections of the project. The project will be reconstructed in three (3) separate sections: Section 1 Lakeshore Boulevard to Willowick Drive, Section 2 Willowick Drive to Barjode Road and Section 3 Barjode Road to north side of Lakeland Boulevard. Sections 1 and 2 will be built by utilizing part-width construction methods and only one lane of one-way traffic will be maintained southbound along E. 305th. Northbound traffic will be detoured. Section 3 will result in the partial closure of the roadway and interchange area for fourteen (14) consecutive calendar days. The contractor may also potentially be performing work at night in order to help reduce impacts to traffic within the work zone. Construction is expected to begin in April 2025 and last for approximately 6 months. The estimated construction cost is \$2.7 million. This project has no proposed work in streams or wetlands. No tree removal work is anticipated. No impacts to RMR sites, Section 4(f) sites, Section 6(f) sites, or Cultural resource sites are anticipated. A press release was posted to the City of Willowick's web site. No comments from the public were received during the posting. Public Involvement Conclusion: Based on no public comments, the City of Willowick has decided to proceed with the project as currently designed. The environmental document and associated studies are being prepared using Stage 2 design. A copy of the plans are included in the Project File/General/Project Information/Stage 2 Design.pdf.

The next phase of the proposed project is listed on the STIP: Yes
