Project Description:

ODOT is proposing a project to correct the approach slab and pavement profiles leading onto and off of the LUC-475-0254 bridge. All work is within the existing right of way and there will be no impacts to any utilities. All work is within the existing right of way, and there will be no impact to utilities. Since there is no work within any waters of the US and there are no floodplain impacts, no permits are required. There are some ecological species located within 1 mile of the project sites, but there will be no impacts to any state or federally listed species or their habitat. This project has a minimal potential to cause impacts to any historical resources. Construction is expected to begin in the summer of 2025 and last approximately 60 days.
