**Project Description:**

NOACA and ODOT, in partnership with the City of Chardon, is proposing a roadway resurfacing project in Geauga County, Ohio. The project includes Pavement planing, base pavement repair and resurfacing of North Street from Center Street (SR44/US6) to the city's north corporation limit. No new right-of-way is required for the project. No off-pavement work will occur. A Cultural Resources Records Check was performed by district environmental staff Megan Romanchok, Environmental Specialist 2, using the online OSHPO ArcMap Resource Map using the Ohio State Preservation Office GIS Data website. No Cultural Resources listed on or determined eligible for listing on the National Register of Historic Places were identified within the proposed project area. The project's southern termi is outside of the National Register Boundaries for the Chardon Courthouse Square District. No work will take place within the National Register Boundaries. The undertaking is a type which has minimal potential to cause effects to historic properties in accordance with Minimal Potential to Cause Effect - Appendix A of the Section 106 Programmatic Agreement. No further coordination is required. The Records Check can be found in the Project File Under Cultural Resources/Project Information. District approval date 1/12/2026.  
 This project is not located in a floodplain. This C1-level resurfacing project has such a remote chance of affecting base flood elevation that it is excluded from analysis. No work in streams, wetlands, or pollinator initiative sites. No tree removal.  
 Estimated construction cost for the project is \$905,400  
 Federal funding is capped at \$600,700 (80% STBG)
