ODOT District 2
Funding Source Federal

Project Description:

ODOT is proposing to reline the culvert under US Route 6 in Henry County at the 17.22-mile marker. Temporary right of way will be required from 2 undeveloped/agricultural parcels for culvert access. This work will require a waterway permit from the USACE and will also require coordination for work within a floodplain. There are no impacts to any listed species or their habitat. This project has minimal potential to cause adverse effects to any historically significant resources. Construction is expected to begin in the summer of 2027. During construction, traffic will be maintained at all times.

This document was written and approved using Stage 2 plans.

The next phase of the proposed project is listed on the STIP: Yes

Ellis STIP Details

Phase	Current STIP Reference
ENV	On Previous STIP
RW	101341: 26-29 STIP
CO	101341: 26-29 STIP

The current cost estimate is in line with existing federal procedures for Ohio STIP Amendments and Administration Modifications: Yes

Select the appropriate project type:

(28) Bridge rehabilitation, reconstruction, or replacement or the construction of grade separation to replace existing at-grade railroad crossings, if the actions meet the constraints in 23 CFR 771.117(e). **Examples include: Railroad projects that close or relocate at-grade crossings**

In accordance with 23 CFR 771.117(e), the proposed project cannot be processed as a C2 CE, if it involves - a. Acquisition of more than a minor amount of ROW (exceeds strip takes) b. Residential or non-residential displacements c. A U.S. Coast Guard permit or an Individual Section 404 permit under the Clean Water Act d. A Section 106 finding of Adverse Effect e. Section 4(f) impacts greater than de minimis f. A finding of May Affect, Likely to Adversely Affect to Threatened and Endangered Species g. Construction of temporary access, or the closure of existing road, bridge, or ramps, that would result in major traffic disruptions h. Changes in access control i. Floodplain encroachment other than functionally dependent uses (e.g., bridges, wetlands) or actions that facilitate open space use (e.g., recreational trails, bicycle and pedestrian paths) j. Construction activities in, across or adjacent to a river component

designated or proposed for inclusion in the National System of Wild and Scenic Rivers k. No minor public or agency controversy on environmental grounds (no opposition from any organized groups or agencies and no unresolved environmental coordination) l. Substantial Community Impacts (if a Community Impact Assessment is required, contact OES for guidance). For certification purposes, documentation is required to illustrate no significant impacts will occur to the following environmental resources and that no unusual circumstances exist that would warrant a higher level of NEPA document. Upload all supporting documentation to the project file.

Ecological

Waterways:

Present; No Coast Guard, Individual 404, and/or Section 10 Permit required

Waterways Permit Type:

Regional General Permit

Waterways Permit Approval Date

12/09/2025

Isolated Wetland Permit

No

Will any wetlands be impacted?

No

The following Federally Listed Species received an effect determination of May Affect, Not Likely to Adversely Affect:

Species Common Name	Species Scientific Name	Listing Status	Most Recent Coordination Date
Indiana Bat	<i>Myotis sodalis</i>	Endangered	09/19/2025
Northern Long-eared Bat	<i>Myotis septentrionalis</i>	Endangered	09/19/2025
Tricolored Bat	<i>Perimyotis subflavus</i>	Proposed Endangered	09/19/2025

The following Federally Listed Species received an effect determination of No Effect:

Species Common Name	Species Scientific Name	Listing Status	Most Recent Coordination Date
Bald Eagle	<i>Haliaeetus leucocephalus</i>	Species of Concern	09/19/2025

Endangered Species Remarks:

Approximately 0.65 acres of SWH with roosting characteristics for federally listed bat species will be impacted by this project. There were no records of any bat species within a mile of the project area and the project is not located within a USFWS bat buffer. All tree removal will occur between October 1 and March 31 to protect these species during their summer roosting period.

Scenic Rivers

No National Wild and Scenic River Within 1000 Feet of the Proposed Project Area

Scenic Rivers Remarks

This project is not located within 1000 feet of a scenic river

Floodplains

100-Year Floodplain:

No Encroachment Within a Special
Flood Hazard Area (SFHA)

Floodplain Remarks

This project is not located within a special flood hazard area. No coordination or additional documentation is required.

Section 4(f)

Section 4(f):

Not present

Section 4(f) Remarks

No Section 4(f) properties are located within the project area. No coordination is required.

Section 6(f)

Section 6(f):

Not present

Cultural Resources

Cultural Resources:

Present; No Finding of Adverse
Effect

Cultural Resources Coordination:

Minimum Potential to Cause Effect
Appendix B

**Cultural Resources Coordination - ODOT Approval/SHPO
Concurrence Date**

12/04/2025

Cultural Resources Remarks

In accordance with Stipulation V(C)(1) and Appendix B of the Section 106 Programmatic Agreement executed on June 29, 2023 (Agreement No. 38503), ODOT-OES has determined that the proposed project is a type of undertaking that has 'minimal potential to cause effects' to historic properties and is not a part of a larger undertaking.

Tribal Consultation Summary/Remarks:

No comments or objections were received within 30 days

Environmental Resources Considered

The following environmental resources are present and have been studied for potential impacts:

Regulated Materials

Air Remarks

The project does not add capacity, a new interchange or a new road on new alignment. This project only slightly modifies an existing alignment. Hence this project will not result in any meaningful changes in traffic volume, vehicle mix, location of the existing facility, or any factor that would cause an increase in emissions impacts relative to the no-build alternative. The project is exempt under 40 CFR 93.126. No air quality analysis is required.

Noise Remarks

The project does not qualify as a Type I project for noise (i.e. not adding capacity to thru lanes, not moving thru travel lanes equal to or greater than 50% closer to noise sensitive areas) and a noise analysis is not required for the project under 23 CFR 772.

The project involves ROW acquisition, Deep Excavation, or OEPA 513 Landfill Authorization: No

Hazardous Materials - OES Approval Date: 12/03/2025

Regulated Materials Review Remarks:

There is no permanent right of way or deep excavation required for this project. This project is not located within 300 ft of a landfill. No further studies are required.

Public Involvement

Public Involvement: Minimum PI Requirements Met; No Minor Public or Agency Controversy on Environmental Grounds

Public Involvement Remarks

Minimum PI requirements were met and no comments or objections were received.

Environmental Commitments

Environmental Commitments Yes

Environmental Commitments

C2

1) Ensure impacts to the federally listed and protected Indiana bat and northern long-eared bat are avoided and minimized. Do not remove trees from April 1 through September 30. Perform all necessary tree removal from October 1 through March 31. Demarcate clearing limits in the field to avoid any unauthorized tree clearing. For the purposes of this note, a tree is defined as a live, dying, or dead woody plant, with a trunk three inches or greater in diameter at a height of 4.5 feet above the ground surface, and with a minimum height of 13 feet.

2) ODOT will adhere to all appropriate Waterway Permit Special Provisions throughout construction
