Project Description:

DriveOhio proposes to install a program of Level 3 Electric Vehicle (EV) chargers along Ohio's Interstates and along major non-interstate routes. This C1 document covers three locations included in Round 3 as detailed in *General\Project Information\County Map.pdf*.

PID	Site No	Location
126353 (Primary)	Sheetz-08	24700 Chagrin Boulevard, Beachwood, Ohio 44122
126352	UDF-04	5275 Beechmont Avenue, Cincinnati, Ohio 45230
126328	Heartland-01	212 Kelton Avenue, Columbus, Ohio 43205

The project does not require new right-of-way and is not within 300-ft of a landfill boundary; deep excavation is necessary due to construction of a canopy on the UDF-04 site.

The proposed undertaking will not involve instream work, pipe replacements, or ditch work. Tree and vegetation impacts will be limited to moving landscaping trees and bushes where needed. No multiuse trails or park access will be impacted. The project will not alter roadway access and is not within a special flood hazard area. One site (Heartland-01) is located within a historic district but meets the criteria listed in the Section 106 PA.

Site layouts are provided in the project file as *General\Project Information\Schematic Plans.pdf*. The environmental review is based upon the Schematic Plan and clarifications provided by the Project Designer.

The next phase of the proposed project is listed on the STIP: Yes

Ellis STIP Details

Phase	Current STIP Reference
CO	126353: 26-29 STIP
DD	126353: 26-29 STIP

The current cost estimate is in line with existing federal procedures for Ohio STIP Amendments and Administration Modifications: Yes

Cultural Resources Coordination: Minimal Potential to Cause Effect
Appendix A

Cultural Resources Coordination Date: 07/22/2026

Since no Tribe was interested in this project based on their customized preferences, no further Tribal consultation was conducted.

Supporting documentation has been uploaded to Project File: Yes

Select the appropriate project type (more than one can be selected):

(32) The installation, modification, operation, and removal of electric vehicle charging stations, using commercially available technology, within a previously disturbed or developed area. Covered actions are limited to areas where access and parking are in accordance with applicable requirements (such as local land use and zoning requirements) in the proposed project area and would incorporate appropriate control technologies and best management practices (in accordance with the Department of Energy's NEPA procedures [[CE B5.23 of 10 CFR part 1021, subpart D, appendix B](#)] and as adopted by the USDOT [88 FR 64972, September 20, 2023]).
