Project Sponsor: HENRY COUNTY ENGINEER
ODOT District: 2
Funding Source: Federal
Private Funding: No

Project Description:

The Henry County Engineers Office is proposing to paint the structural steel of the bridge that crosses the Maumee River in Florida OH. All work is within the existing right of way and there will be no impacts to any utilities. There will be no work within the Maumee River so no waterway permits are required. Coordination with the Local Floodplain Administrator has been completed and the project does not require a floodplain permit. This project will have minimal impacts to ecological and historical resources. Construction is expected to begin in the summer of 2019 and last approximately 90 days. During construction, one lane of traffic over the bridge will be maintained at all times.

This document was written and approved based on Stage 2 plans.

Cultural Resources Coordination: Minimal Potential to Cause Effect
Appendix A

Cultural Resources Coordination Date: 11/08/2017

Since no Tribe was interested in this project based on their customized preferences, no further Tribal consultation was conducted.

Supporting documentation has been uploaded to Project File: Yes

Select the appropriate project type (more than one can be selected):

(22) Projects, as defined in 23 U.S.C. 101 that would take place entirely within the existing operational right-of-way. Existing operational right-of-way refers to right-of-way that has been disturbed for an existing transportation facility or is maintained for a transportation purpose. This area includes the features associated with the physical footprint of the transportation facility (including the roadway, bridges, interchanges, culverts, drainage, fixed guideways, mitigation areas, etc.) and other areas maintained for transportation purposes such as clear zone, traffic control signage, landscaping, any rest areas with direct access to a controlled access highway, areas maintained for safety and security of a transportation facility, parking facilities with direct access to an existing transportation facility, transit power substations, transit venting structures, and transit maintenance facilities. Portions of the right-of-way that have not been disturbed or that are not maintained for transportation purposes are not in the existing operational right-of-way. **Examples include: Tower lighting within the existing operational right-of-way; Guardrail installation and replacement (including median cable barriers) where roadway ditches and backslopes will not be relocated; Improvements to existing ODOT/County maintenance facilities; Construction of new ODOT/County maintenance facilities within existing operational right-of-way; Environmental mitigation activities within**

Approved: 10/15/2018

existing operational right-of-way; Work on pedestrian and vehicle transfer structures and associated utilities, buildings, and terminals within existing operational right-of-way; Construction of alternative energy facilities (fuel tank farms, wind turbines, etc.)

(23) Projects that receive less than \$5,179,656.40 of Federal funds **or** with a total estimated cost of not more than \$31,077,938.40 **and** with Federal funds that comprise less than 15 percent of the total estimated project cost *(each amount adjusted annually by the Secretary to reflect any increases in the Consumer Price Index prepared by the Department of Labor, see www.fhwa.dot.gov or www.fta.dot.gov).*

Environmental Commitments:

Yes

Environmental Commitments

C1

- 1) The LPA Project Designer shall incorporate a note in the construction plans to address ODNR Scenic River material containment requirements.
- 2) The LPA Project Designer shall incorporate a note in the construction plans to address ODNR Scenic River material disposal requirements.
- 3) The LPA Project Designer shall incorporate the following note into the plans: The Henry County Engineers Office and the contractor shall ensure that access to the parking lot and trail in the NW quadrant is maintained at all times during construction.
- 4) The project designer shall include a note in the construction plans to address the project's location in relation to the drinking water source.
- 5) The LPA Project Designer shall incorporate the following note into the plans: The contractor shall take all precautions to prevent any and all material from going off the edge of bridge deck(s) and edge of culvert(s) during all construction operations. The contractor shall immediately remove through non-mechanical means any material that falls into the roadside ditches, streams, wetlands, or other waters. Under no circumstances shall the contractor work in or store equipment and/or materials in any wetlands, streams, or other waters. No work or staging is permitted below the top of bank of any stream and/or within a wetland.
