Funding Source: Federal
Private Funding: No

Project Description:

Repair the slope of SR-168 that is adjacent to Chickagami Park just north of Grand River in Parkman Township.

All work will be within existing SR-608 right-of-way. See Stage 3 Design Plans in Project File/General/Project Information/Stage 3 Design.pdf.

Chickagami Park is adjacent to the SR-608 right-of-way. No work on park property is required. No staging of construction or storage of equipment is permitted on park property.

The Grand River runs through Chickagami Park and is located approximately 70-feet from the toe of the slope that is being repaired. See aerial photo in project File/General/Project Information/Aerial Map.pdf. All work will be above the Ordinary High Watermark (OHWM) of the Grand River and there will be no impact to wetlands. There is no tree removal required for the project. The project meets the criteria for Ecologically Exempt determination and no coordination with agencies is required.

No waterway permits are required for the project.

The estimated project cost is \$100,000 and will be using 80% federal and 20% state funding.

The C1 Determination Approval is based on the Stage 3 Design Plans. See Stage 3 Design Plans in Project File/General/Project Information/Stage 3 Design.pdf.
